

# Sailing Through Life

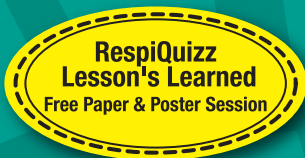

The 19<sup>th</sup>  
International  
Meeting on  
Respiratory  
Care  
Indonesia  
(Respina) 2017

## WORKSHOPS ON RESPIRATORY CARE

Shangri-La hotel, Jakarta  
August 9<sup>th</sup> - 10<sup>th</sup>, 2017

## SYMPOSIUM

Shangri-La hotel, Jakarta  
August 11<sup>th</sup> - 12<sup>th</sup>, 2017

Final Announcement

## IMPORTANT DATES

Deadline of Hotel Reservation  
**JUNE 16<sup>th</sup>, 2017**

Early Registration  
**JUNE 30<sup>th</sup>, 2017**

Deadline Registration for  
Poster & Free Paper Submission  
**JULY 07<sup>th</sup>, 2017**

Deadline of Abstract for  
Poster & Free Paper Presentation  
**JULY 14<sup>th</sup>, 2017**

Deadline for Full Paper Submission  
**JULY 17<sup>th</sup>, 2017**

Workshop on Respiratory Care  
**AUGUST 09<sup>th</sup>-10<sup>th</sup>, 2017**

Symposium and Exhibition  
**AUGUST 11<sup>th</sup>-12<sup>th</sup>, 2017**

### VENUE

Shangri-La hotel, Jakarta  
Jl. Jend. Sudiman Kav. 1 Kota BNI  
Jakarta 10220 - Indonesia

### SUPPORT BY

## WELCOME MESSAGE 2017

Dear Colleagues,

On behalf of 19<sup>th</sup> Respina 2017 Organizing Committee, we extend a warm welcome to all participants to attend The International Meeting of Respiratory Care Indonesia which will be held on August 9<sup>th</sup> – 12<sup>th</sup>, 2017 in Shangri-La hotel, Jakarta. Respina has been organized since 1998 as one of the largest Respiratory Care event in Southeast Asia.

Featuring the theme “Sailing Through Life”, Respina will bring the up-to-date information and explore the latest development of medical science to answering the global problems in respiratory care and as a media of collaboration for all respiratory care practitioners. Respina 2017 consists of two days of workshop and two days of scientific symposia.

There will be six workshops, in which we collaborate with National Agency of Food and Drugs Control (Badan Pengawas Obat dan Makanan/BPOM) and National Institute of Health, Research, and Development (Badan Penelitian dan Pengembangan Kesehatan/Balitbangkes).

The scientific symposia will be filled by plenary and session lectures given by the experts and we do hope to create the attractive and knowledgeable conference. RespiQuizz will provide the chance to see the capabilities and competitiveness between students from various medical faculties in Indonesia. Last but not least, the most novel studies and advancements in respiratory care will be presented by various specialists in poster session.

In conclusion, The 19<sup>th</sup> Respina will offer great opportunities for the participants to discuss recent topics regarding respiratory care in their respective expertise's and share their experiences in daily practice.

We are looking forward to see you in Jakarta to enjoy the excitement of this scientific meeting.

Warm Regards,

**Retno Wihastuti, M.D.**  
Chairperson

## ABOUT Respina

Respiratory Care Indonesia (Respina) is an annual international meeting in Indonesia on respiratory care. Respina is a collaboration of five pillars, which are Department of Pulmonology and Respiratory Medicine Faculty of Medicine University of Indonesia, American College of Chest Physician-Indonesia Chapter, Asian Pacific Society of Respirology, Indonesia Society of Bronchoscopy and Indonesian Society of Respirology, in answering the global problem of respiratory care. The mission of the meeting is to bring the up-to-date and latest information of respiratory care and as media of collaboration to each respiratory care practitioners in cooperative spirit.

Starting on 2006, Respina is proudly joined by societies that shared the same interest particularly in respiratory care, and they are as follows:

- Indonesian Society of Respirology
- Indonesian Association of Thoracic and Cardiovascular Surgeons
- Indonesian Radiological Society
- Indonesian Neurological Association
- Indonesian Heart Association
- The Indonesian Society of Anesthesiology and Intensive Therapy
- The Indonesian of Physical Medicine and Rehabilitation Association
- Indonesian Pediatric Society
- The Indonesian Otorhinolaryngological Head and Neck Surgery Society

Four others professional organization joined Respina in 2011, and they are:

- Indonesian Association of Clinical

Pathologists

- The Indonesian Physician of community medicine and Public Health Association
- Indonesian Sports Medicine Association
- Indonesian Society for Clinical Microbiology

Respina 2017 is the 19<sup>th</sup> meeting we have been conducting and during the years, Respina has become one of the major respiratory events in Indonesia and gained greater and still growing interest from physicians across the region, particularly from our colleagues in Southeast Asia.

### PILAR

- Department of Pulmonology and Respiratory Medicine Faculty of Medicine University of Indonesia
- American College of Chest Physician (ACCP) - Indonesia Chapter
- Asian Pacific Society of Respirology (APSR) Representative for Indonesia
- The Indonesia Society of Bronchoscopy (PERBRONKI) Indonesia
- Indonesian Society of Respirology (PDPI)

### HONORARY CHAIR

- Prof. Hadiarto Mangunegoro, MD, FCCP
- Venugopal S Reddy, MD, FCCP

### BOARD COMMISION

- Prof. Menaldi Rasmin, MD, FCCP
- Sutji Mariono, MD, FCCP, FCCM
- Ida Bernida, MD, FCCP
- Pradjnaparamita, MD, FCCP

## ORGANIZING COMMITTEE

Chairperson : Retno Wihastuti, MD

Vice Chairperson : Dian Yulianti, MD

Secretary : Rita Khairani, MD

Treasurer : Linda Masniari, MD  
Feni Fitriani, MD

Scientific Committee : Pompini Agustina, MD  
Wahyuningsih, MD  
Erlina Burhan, MD  
Sita L. Andarini, MD  
Anitta Florence Stans Paulus, MD  
Sri Dhuny Atas Asri, MD  
Andhika Chandra Putra, MD  
Mia Elhidsi, MD

Publication & Audio Visual : Santi Rahayu Dewayanti, MD  
Dicky Soehardiman, MD  
Kasum Supriadinata, MD

## WORKSHOP

### Good Clinical Practice (GCP) Supported by NA-DFC/BPOM

**2 Days**  
**Wednesday - Thursday**  
**August 09<sup>th</sup> - 10<sup>th</sup>, 2017**

#### Objectives :

1. To provide the basic of clinical research and how to application
2. To be aware of the issue of ethics, medicolegal associated with clinical research and material transfer agreement
3. To understand how to handle investigational products
4. At the end of the workshop, the participants, will be able to conduct research according to GCP guidelines

#### Target audience:

Everybody involved in clinical research (Epidemiological, clinical, and physicians)

### DAY 1, August 09<sup>th</sup>, 2017

08.00 - 08.30	Registration
08.30 - 09.00	Welcome Address <i>Rita Rogayah - RESPINA</i>
09.00 - 09.15	Introduction of Good Clinical Practice Workshop <i>NA-DFC/BADAN POM</i>
09.15 - 10.15	Regulation of Clinical Trial in Indonesia <i>NA-DFC/BADAN POM</i>
<b>10.15 - 10.30</b>	<b>Coffee Break</b>
10.30 - 12.00	GCP Principles <i>NA-DFC/BADAN POM</i>
<b>12.00 - 13.00</b>	<b>Lunch</b>
13.00 - 14.00	Roles of Ethics Committee <i>Ethics Committee</i>
14.00 - 15.00	Material Transfer Agreement <i>MTA Committee</i>
<b>15.00 - 15.15</b>	<b>Coffee Break</b>

15.15 - 16.30 Roles of Key Players in Clinical Trials  
*NA-DFC/BADAN POM*

### DAY 2, August 10<sup>th</sup>, 2017

08.30 - 09.30	Clinical Trial Management :
	a. Subject Recruitment <i>NA-DFC/BADAN POM</i>
	b. Compliance to Randomization <i>NA-DFC/BADAN POM</i>
<b>09.30 - 09.45</b>	<b>Coffee Break</b>
09.45 - 10.45	c. Investigational Drug Handling <i>NA-DFC/BADAN POM</i>
	d. Serious Adverse Events Handling <i>NA-DFC/BADAN POM</i>
10.45 - 12.00	Clinical Trial Facilities <i>NA-DFC/BADAN POM</i>
<b>12.00 - 13.00</b>	<b>Lunch</b>
13.00 - 14.30	Informed Consent <i>NA-DFC/BADAN POM</i>
14.30 - 16.00	Documents <i>NA-DFC/BADAN POM</i>
16.00 - 16.30	Questionnaire <i>NA-DFC/BADAN POM</i>
16.30 - 16.45	Closing <i>Rita Rogayah - RESPINA</i>

## WORKSHOP

### Mechanical Ventilation Thursday, August 10<sup>th</sup>, 2017

#### Objectives:

1. To improve understanding of the basic concepts of mechanical ventilation including the various modes and parameters of mechanical ventilation.
2. To understand the various techniques on monitoring patient with mechanical ventilation

3. To update clinicians on the ventilator management of respiratory failure in specific diseases and complications associated with mechanical ventilation.
4. To develop knowledge of methods of discontinuing ventilator support.

#### Target audience :

Pulmonologists and General Practitioners in ICU (trainees)

07.00 - 08.00	Registration
08.00 - 08.15	Pre-test
08.15 - 08.30	Introduction of Mechanical Ventilation Workshop <i>Kasum Supriadinata (INA)</i>
08.30 - 09.00	Basic Principles of Mechanical Ventilation <i>Prasenhadi (INA)</i>
09.00 - 09.30	Initiation and Monitoring in Mechanical Ventilation <i>Anang Achmadi (INA)</i>
09.30 - 10.00	Ventilator Induced Lung Injury <i>Tantani Sugiman (INA)</i>
10.00 - 10.15	Discussion
<b>10.15 - 10.30</b>	<b>Coffee Break</b>
10.30 - 11.00	Non Invasive Ventilation in Critically Ill Patients <i>Evy Syachriati Siregar (INA)</i>
11.00 - 11.30	Mechanical Ventilation in Acute Respiratory Distress Syndrome <i>Anang Achmadi (INA)</i>
11.30 - 12.00	Mechanical Ventilation in Chronic Obstructive Pulmonary Disease Exacerbation <i>Prasenhadi (INA)</i>
12.00 - 12.15	Discussion
<b>12.15 - 13.15</b>	<b>Lunch</b>
13.15 - 13.45	Identifying and Managing Troubleshooting in Mechanical Ventilation <i>Evy Syachriati Siregar (INA)</i>
13.45 - 14.15	Integrated Weaning from Mechanical Ventilation <i>Tantani Sugiman (INA)</i>

14.15 - 14.45	Interactive Case Study <i>Anang Achmadi (INA)</i> <i>Tantani Sugiman (INA)</i>
14.45 - 15.00	Discussion
<b>15.00 - 15.15</b>	<b>Coffee Break</b>
15.15 - 16.15	Hands on Experience <i>Prasenhadi (INA)</i> <i>Evy Syachriati Siregar (INA)</i>
16.15 - 16.30	Post test and closing

## WORKSHOP

### Pleural Disease Thursday, August 10<sup>th</sup>, 2017

#### Objectives :

1. To improve the knowledge of the basic principles causes of pleural disease
2. To understand the physiological changes that occurs when there are abnormalities in the pleura
3. To determine and identify the kind of diagnostic methods and treatments in common pleural disorder
4. To introduced the latest update on diagnosis and therapeutic effort

#### Target audience :

Pulmonologists and Resident of Pulmonology

07.00 - 07.30	Registration
07.30 - 07.45	Pre test
07.45 - 08.00	Introduction : The Objectives of Pleural Disease Workshop <i>Dicky Soehardiman (INA)</i>
08.00 - 08.30	Anatomy and Physiology of Pleura <i>Rajesh Thomas (AUS)</i>
08.30 - 09.00	Diagnostic Evaluation of Pleural Effusions <i>Dicky Soehardiman (INA)</i>
09.00 - 09.30	Rehabilitation Prescription in Pleural Disease <i>Anitta F.S. Paulus (INA)</i>

09.30 – 10.00	Treatment of Common Pleural Diseases <i>Wahju Aniwidyaningsih (INA)</i>	4. Recognize of toxicity O <sub>2</sub> and how to overcome it
10.00 – 10.15	Discussion	5. To know for monitoring and evaluation parameter, it's meaning and implication of parameter changes at home
<b>10.15 – 10.30</b>	<b>Coffee Break</b>	6. Explain the usefulness and advantages of inhalation therapy
10.30 – 11.00	Fibrinolytic Therapy for Pleural Infection – Update <i>Rajesh Thomas (AUS)</i>	7. Describe the type of inhalation devices and classifying drugs for inhalation therapy
11.00 – 11.30	Pneumothorax: Diagnosis and Management <i>Dicky Soehardiman (INA)</i>	8. Discuss the usefulness inhalations for respiratory therapy
11.30 – 12.00	IPC in Malignant Pleural Effusion Management – Update <i>Rajesh Thomas (AUS)</i>	
12.00 – 12.15	Discussion	
<b>12.15 – 13.15</b>	<b>Lunch</b>	
13.15 – 13.45	Diagnostic and Management of Empyema in Children <i>Diah Asri Wulandari (INA)</i>	
13.45 – 13.55	Discussion	
13.55 – 15.00	Case Study <i>Dicky Soehardiman (INA)</i> <i>Diah Asri Wulandari (INA)</i>	
<b>15.00 – 15.15</b>	<b>Coffee Break</b>	
15.15 – 16.15	Hands On <i>Dicky Soehardiman (INA)</i> <i>Rajesh Thomas (AUS)</i> <i>Wahju Aniwidyaningsih (INA)</i>	
16.15 – 16.30	Post test and closing	

## WORKSHOP

### Oxygen and Inhalation Therapy

Thursday, August 10<sup>th</sup>, 2017

#### Objectives :

1. Describe conditions for which supplemental O<sub>2</sub> is used
2. Recognize the different types of delivery systems for O<sub>2</sub> therapy and how to calculate O<sub>2</sub> Supplementation
3. Explain safety consideration for the use of O<sub>2</sub>

4. Recognize of toxicity O<sub>2</sub> and how to overcome it
5. To know for monitoring and evaluation parameter, it's meaning and implication of parameter changes at home
6. Explain the usefulness and advantages of inhalation therapy
7. Describe the type of inhalation devices and classifying drugs for inhalation therapy
8. Discuss the usefulness inhalations for respiratory therapy

#### Target audience :

Pulmonologists, Intensivists, Resident Pulmonology, Emergency Medicine Doctors, General Practitioners

07.00 – 08.00	Registration
08.00 – 08.15	Pre-test
08.15 – 08.30	Introduction of Oxygen & Inhalation Therapy Workshop <i>Santi R. Dewayanti (INA)</i>
08.30 – 09.00	Principal of Oxygen Therapy <i>Feni Fitriani (INA)</i>
09.00 – 09.30	Monitoring and Evaluation of Oxygen Therapy <i>Dian Yulianti (INA)</i>
09.30 – 10.00	Toxicity of Oxygen Therapy <i>Pompini Agustina (INA)</i>
10.00 – 10.15	Discussion
<b>10.15 – 10.30</b>	<b>Coffee Break</b>
10.30 – 11.00	Indication of NIV Therapy and Selected Equipments <i>Linda Masniari (INA)</i>
11.00 – 11.30	The Advantages of NIV for Chronic Respiratory Diseases <i>Jennifer Ann Wi (PHIL)</i>
11.30 – 12.00	How to Monitoring NIV Usage at Home <i>TBA</i>
12.00 – 12.15	Discussion

**12.15 – 13.15** **Lunch**

11.30 – 12.00 How to Monitoring NIV Usage at Home  
*TBA*

12.00 – 12.15 Discussion

**12.15 – 13.15** **Lunch**

13.15 – 13.45	The Principal of Inhalation Therapy (Devices and Drugs) <i>Sri Dhuny Asri (INA)</i>
13.45 – 14.15	Long Term Inhalation Therapy for Respiratory Diseases <i>Jennifer Ann Wi (PHIL)</i>
14.15 – 14.30	Discussion
14.30 – 15.00	Case Study <i>Santi R. Dewayanti (INA)</i> <i>Feni Fitriani (INA)</i>
<b>15.00 – 15.15</b>	<b>Coffee Break</b>
15.15 – 16.15	Hands on Experience <i>Linda Masniari (INA)</i> <i>Sri Dhuny Asri (INA)</i> <i>Jennifer Ann Wi (PHIL)</i>
16.15 – 16.30	Post test and closing

## WORKSHOP

### Lung Function

Thursday, August 10<sup>th</sup>, 2017

#### Objectives:

1. To provide comprehensive understanding of the physiological basic of respiration and lung function test
2. To understand the measurement of lung function in infant and children
3. To understand cardio-pulmonary exercise testing
4. To learn how to interpret lung function results and relate these findings to disease processes or clinical diagnosis

#### Target audience :

Pulmonologist, pediatricians, surgeon, physician and nurse with interest in occupational medicine and medical check-up

07.30 – 08.00	Registration
08.00 – 08.15	Pre test
08.15 – 08.30	Introduction of Lung Function Workshop <i>Rita Khairani (INA)</i>

08.30 – 09.00	Anatomy and Physiology for Lung Function Test Purpose <i>Rita Khairani (INA)</i>
09.00 – 09.30	Spirometry : Dynamic and Static Lung Volume <i>Triya Damayanti (INA)</i>
09.30 – 10.00	Pre Operative Pulmonary Function Testing <i>Andika Chandra Putra (INA)</i>
10.00 – 10.15	Discussion
<b>10.15 – 10.30</b>	<b>Coffee Break</b>
10.30 – 11.00	Cardio-Pulmonary Exercise Testing <i>Andika Chandra Putra (INA)</i>
11.00 – 11.30	How to Measure and Using of DLCO <i>Triya Damayanti (INA)</i>

11.30 – 12.00 Clinical Application and Occupational Health Regulation of Lung Function Test  
*Faisal Yunus (INA)*

12.00 – 12.15 Discussion

**12.15 – 13.15** **Lunch**

13.15 – 13.45 Bodyplethysmograph: Principles and Technique  
*Faisal Yunus (INA)*

13.45 – 14.15 Pulmonary Function Measurement in Infant and Children  
*Wahyuni Indawati (INA)*

14.15 - 14.30 Discussion

14.30 – 15.00 Case Study  
*Triya Damayanti (INA)*  
*Rita Khairani (INA)*

**15.00 – 15.15** **Coffee Break**

15.15 – 16.15 Hands on Experience Spirometry, PEF Meter, CPEX Demonstration  
*Andika Chandra Putra (INA)*  
*Rita Khairani (INA)*

16.15 – 16.30 Post test and closing

## WORKSHOP

### Material Transfer Agreement (MTA) in Conduct the Research

Thursday, August 10<sup>th</sup>, 2017

#### Objectives :

1. To know and understand the meaning of nationality in research including intellectual property rights
2. To know and understand the meaning of intellectual property rights and each aspects the owners of intellectual property.
3. To know and understand how to propose and to implement the regulation of MTA based on the legal basis and how the intellectual property will be owned by the founders or researcher starting from creating the proposal until the research published
4. To know and understand how to form a research collaboration which has the same equality with others that also take a part in those research till it published
5. To know and understand how to generate and obtain a patent for a research product/s.
6. To know and understand how to use the agreement of research collaboration, regarding the rights and subjects of research within bilateral nations or multilateral nations

#### Target audience :

Everybody involved in research such as Institution Education, Researchers, Doctors and Resident

07.00 – 07.30	Registration
07.30 – 07.45	Pre test
07.45 – 07.50	Opening Ceremony <i>Rita Rogayah (INA)</i>
07.50 – 08.00	Introduction of Material Transfer Agreement Workshop <i>Dian Yulianti (INA)</i>
08.00 – 08.40	Insight of Nationality in Research <i>(Ministry of Law and Human Rights, Republic of Indonesia)</i>

08.40 – 09.20	Insight of Intellectual Property Rights in Research <i>(MTA Committee)</i>
09.20 – 10.00	Principle and Technique of Negotiation in Clinical Research <i>(MTA Committee)</i>
10.00 – 10.15	Discussion
<b>10.15 – 10.30</b>	<b>Coffee Break</b>
10.30 – 11.00	Overview of Clinical Research Contract <i>(MTA Committee)</i>
11.00 – 11.30	How to Generate and Obtain A Patent in Research <i>(Ministry of Research, Technology, and Higher Education of the Republic of Indonesia)</i>
11.30 – 12.00	Negotiation Management and Research Contracts in the Institutional and Country Level <i>(Directorate General of Law and International Treaties Ministry of Foreign Affairs, Republic of Indonesia)</i>
12.00 – 12.15	Discussion
<b>12.15 – 13.15</b>	<b>Lunch</b>
13.15 – 13.45	Understanding Crucial Terminology in Clinical Research Contract <i>(MTA Committee)</i>
13.45 – 15.00	Practical Work I <i>(Contract Drafting)</i>
<b>15.00 – 15.15</b>	<b>Coffee Break</b>
15.15 – 15.45	Agreement and Reporting MTA <i>(MTA Committee)</i>
15.45 – 17.00	Practical Work II <i>(Research Contract Drafting)</i>
17.00 – 17.15	Post test
17.15 – 17.20	Closing <i>Rita Rogayah (INA)</i>

## SCIENTIFIC SCHEDULE

Day 1 Friday, August 11<sup>th</sup>, 2017

### REGISTRATION

07.00 - 07.30

### MORNING SYMPOSIUM 1 Respiratory Health

#### Objectives:

- To know and understand the respiratory symptoms after exercise in elite athletes and how to prevent it and what efforts should be done to achieve respiratory health in elite athletes
- To find out how to build a healthy environment for respiratory health in community and what it takes to build that system

07.30 - 07.55	Respiratory Health of the Elite Athletes <i>Angelica Anggunadi (INA)</i>
07.55 - 08.20	Community System Support to Achieve Respiratory Health <i>Trevino Pakasi (INA)</i>
08.20 - 08.30	Discussion

### MEET THE EXPERT 1 Chronic Cough : Panel Expert

#### Objectives:

- To understand the specific points of chronic cough in children including it's management, and get well aware of the limitations and possible adversity in the extrapolation of data or inform from adults to children
- To understand diagnosis and management of chronic cough in adult: evidence based clinical practice guideline and it's challenges
- To understand panel review of chronic cough including the pros and cons of both children and adult

07.30 - 07.55	Point of View by Pediatric <i>Eddy Widodo (INA)</i>
07.55 - 08.20	Point of View by Pulmonologist <i>Dianiati Kusumo Sutoyo (INA)</i>
08.20 - 08.30	Discussion

### MORNING SYMPOSIUM 2 Pulmonary Embolism

#### Objectives:

- To know diagnosis and management of pulmonary embolism up dating based on evidence based and how it can be implemented in Indonesia
- To understand the value of CT perfusion diagnostic speed in establishing the diagnosis of pulmonary embolism and what CT can be used to prove it?

07.30 - 07.45	Diagnosis of Pulmonary Embolism <i>Suci Indriani (INA)</i>
07.45 - 08.00	Management of Pulmonary Embolism <i>Wahju Aniwidyaningsih (INA)</i>
08.00 - 08.15	CT Perfusion for Diagnostic Pulmonary Embolism <i>Vally Wulani (INA)</i>
08.15 - 08.30	Discussion

### PLENARY SESSION 1 Sailing Through Life of Unique Medical Practice

#### Objectives:

- To remind the understanding of the value of medical professionalism in the era of health care systems and IDI able to criticize and reward professionalism in that era

# SCIENTIFIC SCHEDULE

- To understand what potential legal issues in medical practice in the era of national health insurance and how to overcome them
- To understand the uniqueness of medicine as an art or science and how its application in daily practice

08.30 - 08.50 Criticize and Appreciation among Medical Professionalism in the Health Care System

*Ilham Oetama Marsis (Head of the Indonesia Medical Association)*

08.50 - 09.10 Legal Issue of Medical Practice in National Health Insurance

*Herkutanto (INA)*

09.10 - 09.35 Medicine: Art or Science

*Martin J. Tobin (USA)*

## OPENING CEREMONY

09.35 - 10.10

## COFFEE BREAK

10.10 - 10.30

## SATELLITE SYMPOSIUM 1

### Respiratory Care in Obstructive Lung Disease

#### Objectives:

- To find out the latest strategies in the diagnosis and management of COPD including the basic idea changes in the strategies
- To better understand how to achieve effective asthma management through a respiratory health care approach that includes pharmacologic, non-pharmacologic and environmental controlled

- To understand the most accepted diagnostic criteria for ACO and well defined it both of diagnostic and management

- To understand do pulmonologist really need ACO and what's different with asthma mixed COPD phenotype

10.30 - 10.45 New Approach of COPD Cases  
*Faisal Yunus (INA)*

10.45 - 11.00 The Effectiveness of Current Asthma Approach

*Dianiati Kusumo Sutoyo (INA)*

11.00 - 11.15 ACO: Diagnostic and Management

*Retno Wihastuti (INA)*

11.15 - 11.30 Discussion

## SATELLITE SYMPOSIUM 2

### Neuromuscular Disease and Complication

#### Objectives:

- To remind the approaches to define neuromuscular weakness and how to overcome it
- To know the procedure diagnostic of Flexible Endoscopy Evaluation on Swallowing (FEES) and the appropriate time do the procedure for aspiration pneumonia cases

10.30 - 10.55 How to Diagnostic and Treatment Neuromuscular Weakness

*Moh. Hasan Machfoed (INA)*

10.55 - 11.20 Flexible Endoscopy Evaluation on Swallowing (FEES) as an early Detection for Aspiration Pneumonia

*Elvi Zulka (INA)*

11.20 - 11.30 Discussion

## SATELLITE SYMPOSIUM 3

### Heart Lung Interaction

#### Objectives:

- To know diagnostic approach and challenges in patient with coexistent COPD and Heart Failure
- To find out a medical rehabilitation program in COPD patients with heart failure, and the goals of the program, and be able to assess the achievement of the program

10.30 - 10.55 Right Heart Failure in Patients with Chronic Obstructive Pulmonary Disease

*Ade Meidian Ambari (INA)*

10.55 - 11.20 Exercise Prescription for COPD with Right Heart Failure

*Nury N. Handikin (INA)*

11.20 - 11.30 Discussion

## LUNCH & FRIDAY PRAYING

11.30 - 13.00

## LUNCH SYMPOSIUM 1

### Sleep-Disordered Breathing

#### Objectives:

- To be able to understand the advantages and disadvantages of apnea-hypopnea index as a tool for measuring sleep breathing disorder
- To be able to understand a concept of why apnea-hypopnea index to be the best tool of measurement or the reverse, that is not the best measure so can choose exactly which one should use

13.00 - 13.25 Point: Apnoe Hypopnea Index is the Best Measure for Severity of Sleep-Disordered Breathing

*Rimawati Tedjasukmana (INA)*

13.25 - 13.50 Counter Point: Apnoe Hypopnea Index is the Best Measure for Severity of Sleep-Disordered Breathing

*TBA*

13.50 - 14.00 Discussion

## LUNCH SYMPOSIUM 2

### Pulmonary Hypertension Challenges and Opportunities Management

#### Objectives:

- To better understand how to diagnose appropriately pulmonary hypertension at early stage and how it's applied in daily practice
- To understand pulmonary hypertension management for patients in primary health care to tertiary health care
- To understand interventional approach for pulmonary hypertension treatment including chance and its challenges

13.00 - 13.15 Diagnostic Approach in Pulmonary Hypertension

*Bambang Widyantoro (INA)*

13.15 - 13.30 Management in Pulmonary Hypertension

*Santi Rahayu Dewayanti (INA)*

13.30 - 13.45 Intervention Treatment for Pulmonary Hypertension

*T. Agasthan (SIN)*

13.45 - 14.00 Discussion

## MASTER CLASS IN RESPIRATORY CARE

### The Idea of Using Mechanical Ventilation

#### Objectives:

- To get better and easier the understanding of the physiologic basis of mechanical ventilation

# SCIENTIFIC SCHEDULE

- To better understand the holistic thinking and care patients with mechanical ventilation from the moment of deciding intubation, during intubation to weaning and post intubation

14.00 - 14.25 The Physiologic Basis of Mechanical Ventilation

*Martin J. Tobin (USA)*

14.25 - 14.50 Holistic Consideration and Care on Mechanically Ventilated Patient

*Menaldi Rasmin (INA)*

14.50 - 15.00 Discussion

## **SATELLITE SYMPOSIUM 4** **Interpretation Laboratory Results into Diagnostic of Disease**

### **Objectives:**

- To understand diagnostic value of clinical laboratory findings on respiratory infection cases with various etiology
- To understand diagnostic value of gram staining and microbiology culture in patients with pneumonia and COPD exacerbation to help antibiotic selection strategy

15.00 - 15.25 Accurate Etiology Diagnoses for Better Medical Treatment and Prevention in Respiratory Infection

*Dewi Lokida (INA)*

15.25 - 15.50 Diagnostic Value of Gram Staining and Microbiology Culture in Pneumonia and COPD Exacerbation

*Kuntaman (INA)*

15.50 - 16.00 Discussion

## **SATELLITE SYMPOSIUM 5** **Pleural Disease Management – Update**

### **Objectives:**

- To know the up date medicine for pleural disease based evidence and is it applicable in daily practice
- To understand the role of intervention approach in pleural disease including when, who and how the procedure could done
- To understand the role of surgery in pleural disease including when, which/who and how the procedure could done

15.00 - 15.25 Newer Advances in Pleural Medicine

*Rajesh Thomas (AUS)*

15.25 - 15.50 Surgery Approach in Pleural Disease

*Saladdin (INA)*

15.50 - 16.00 Discussion

## **FREE PAPER**

15.00 - 16.00

## **POSTER SESSION**

15.00 - 16.00

## **Day 2 Saturday, August 12<sup>th</sup>, 2017**

### **REGISTRATION**

07.30 - 08.00

### **LESSON'S LEARN**

#### **Pulmonary Cases with Multidisciplinary and Integrity Partners**

### **MORNING SYMPOSIUM 3**

#### **Addressing the Burden of Pneumonia Management**

### **Objectives:**

- To understand what consideration and selection strategy of broad-spectrum antibiotics in cases of pneumonia for patients with serious illness
- To find out how the antibiotic selection strategy in the event of clinical failure treatment in cases of pneumonia
- To understand how is the evaluation result of microbiology culture in cases of pneumonia for patients with serious illness

08.00 - 08.20 Use of Broad-Spectrum Antimicrobials for the Treatment of Pneumonia in Seriously Ill Patients

*Sutji A. Mariono (INA)*

08.20 - 08.40 Evaluation of Microbiology Culture for Pneumonia in Seriously Ill Patients

*Kuntaman (INA)*

08.40 - 08.50 Discussion

### **MORNING SYMPOSIUM 4**

#### **Fractional Asthma and Allergy**

### **Objectives:**

- To better understand how to recognize asthma genotypes and the genotype of mimic asthma including the difference between them

- To know how to control allergic rhinitis, how to apply and what its impact on health care and also its relation to asthma patients

08.00 - 08.20 Genotype Asthma and Mimic Asthma

*Jennifer Ann Wi (PHI)*

08.20 - 08.40 Control of Allergic Rhinitis: Application and Implication to Patient's Health Care

*Niken L. Poerbonegoro (INA)*

08.40 - 08.50 Discussion

### **PLENARY SESSION 2**

#### **Transformation Critical Care in The Current Era**

### **Objectives:**

- To understand that it is major requirement of multidisciplinary professions in critical patient care and to know how can establish a multidisciplinary collaboration that goes well with any physician according to its competence
- Overview of transformation critical care from beginning until now including challenges and how to overcome it
- How to collaborate knowledge, humanity (patient and family's patient), and culture in critical care even if there's dispute between them
- To understand that a holistic approach care in critical patients also involves early pulmonary rehabilitation

08.50 - 09.10 Integrity Multidisciplinary in Critical Care

*Rita Rogayah (INA)*

09.10 - 09.30 The Idea between Knowledge and Humanity in Critical Care

*Ike Sri Rejeki (INA)*

# SCIENTIFIC SCHEDULE

09.30 - 09.50 Holistic Approach: Pulmonary Rehabilitation in Critical Ill  
*Anita Ratnawati (INA)*

## RespiQuizz

### Objectives:

- To build an awareness, open the insight and to review the knowledge of medical students about respiratory health and respiratory problems that will compete as a teamwork

09.50 - 10.50

## SATELLITE SYMPOSIUM 6 Optimizing Asthma and COPD Management

### Objectives:

- To learn from the cases whether all ICS/LABA have the same drug action and efficacy
- To better understand the best way to prevent the occurrence of exacerbations COPD and how it's applied in daily practice

10.50 - 11.15 Case Study and Lecture: "Are All ICS/LABA the Same?"  
*Hadiarto Mangunegoro (INA)*

11.15 - 11.40 How the Best Way to Preventing Recurrent COPD Exacerbation  
*Pradjanparamita (INA)*

11.40 - 11.50 Discussion

## SATELLITE SYMPOSIUM 7 Rational Complementary Approach to Fight Recent Respiratory Infection

### Objectives:

- To learn more about the basic concepts of infection in the airway and how it's correlation with clinical signs and symptoms that arise

- To understand where and how the role of immunomodulators in the management of infectious diseases is associated with the presence of antibiotics or anti-virus and scientific evidence for clinical improvement of the disease

10.50 - 11.15 Basic Concept Respiratory Tract Infections  
*Erlina Burhan (INA)*

11.15 - 11.40 Immunomodulator: An Important Concept in Recent Respiratory Infection  
*Sita Laksmi Andarini (INA)*

11.40 - 11.50 Discussion

## SATELLITE SYMPOSIUM 8 Interstitial Lung Disease

### Objectives:

- To understand the accuracy of transbronchial lung biopsy for diagnosis of ILD and the possibility of implementation in each case of ILD
- To remind the role of CT scans in assisting the diagnosis of interstitial lung disease (ILD) especially the characteristics for various types of ILD
- To find out how to choose the program and the purpose of medical rehabilitation for ILD cases

10.50 - 11.05 The Utility of Transbronchial versus Surgical Lung Biopsy for Interstitial Lung Disease Diagnostic  
*Lim Chong Hee (SIN)*

11.05 - 11.20 The Clue of Interstitial Lung Disease Imaging  
*Aziza G. Icksan (INA)*

11.20 - 11.35 Rehabilitation for Interstitial Lung Disease  
*Anita Ratnawati (INA)*

11.35 - 11.50 Discussion

## LUNCH SYMPOSIUM 3 New Evidence of Management in Exacerbation Prevention of COPD

### Objectives:

- To remind the impact of COPD exacerbations on disease progression and quality of life of COPD patients and burden of the disease
- To find out the latest study of exacerbations COPD management and impact on clinical improvement, quality of life and challenges on it's application
- To understand that there is a non-pharmacological approach to the management of COPD exacerbations (what, when and how they can be applied and evaluate )

Moderator: Budhi Antariksa (INA)

11.50 - 12.05 What's the Impact of COPD Exacerbation  
*Wiwien Heru Wiyono (INA)*

12.05 - 12.20 Implication of Latest Study on COPD Treatment  
*Susanthy Djajalaksana (INA)*

12.20 - 12.35 Non Pharmacological Management in COPD  
*Jennifer Ann Wi (PHIL)*

12.35- 12.50 Discussion

## LUNCH & PRAYING

12.50 - 13.50

## EVENING SYMPOSIUM Other Perspectives on Oxygen Therapy

### Objectives:

- To better understand what to expect from ventilators and their indications including it's chance and challenges
- To know more when, how, and indications of non-invasive ventilation use and evaluation that appropriate usage includes the challenges

13.50 - 14.10 Mechanical Ventilation: Expectations from, Indications for.

*Martin J. Tobin (USA)*

14.10 - 14.30 Noninvasive Mechanical Ventilation : Time, Procedure and Evaluation

*Ida Bernida (INA)*

14.30 - 14.40 Discussion

## SATELLITE SYMPOSIUM 9 The Diffusion Capacity (DLCO) in Daily Practice

### Objectives:

- To understand more about procedure and measurement of DLCO
- To understand more about DLCO value on clinical findings especially on elevated diffusing capacity

13.50 - 14.10 Measurement of DLCO  
*Budhi Antariksa (INA)*

14.10 - 14.30 Clinical Significance of Elevated Diffusing Capacity  
*Faisal Yunus (INA)*

14.30 - 14.40 Discussion

# SCIENTIFIC SCHEDULE

## SATELLITE SYMPOSIUM 10 Interventional Approach in Respiratory Problems

### Objectives:

- To know when, how and patients characteristic's candidate for lung transplantation in destroyed lung cases
- To understand when and advantages of tumor resection in end stage lung tumor and nowadays experts pros and contras in this case

13.50 - 14.10	Lung Transplantation in Destroyed Lung: Any Chances? <i>Lim Chong Hee (SIN)</i>
14.10 - 14.30	Tumor Resection in End Stage Lung Tumor: Pro and Contra <i>Susan Hendriarini (INA)</i>
14.30 - 14.40	Discussion

## Respiratory Care Partner 1 (Simulation Session)

14.50 - 15.30

## SATELLITE SYMPOSIUM 11 Multidisciplinary Collaboration in Sepsis

### Objectives:

- To understand the concept of the 3<sup>rd</sup> newest sepsis campaign and evolution of sepsis care
- To know how do identify and usage datasource and implementation the SOFA criteria in ED, wards and ICU
- To understand when is the right time, how to do the procedure and overview of bronchoalveolar lavage results in patients with sepsis related pneumonia

14.40 - 15.00	The Newest of Sepsis Campaign <i>Tantani Sugiman (INA)</i>
15.00 - 15.20	Bronchoalveolar Lavage in Sepsis Related Pneumonia <i>Fajrinur Syarani (INA)</i>
15.20 - 15.30	Discussion

## PLENARY SESSION 3 The Newer Approach in Respiratory Care

### Objectives:

- To understand interventional pulmonology update including what, when, chances and challenges to applied in daily practice
- To understand possibility of immunotherapy as an alternative for respiratory management in the future

15.30 - 15.50	The Future Chances of Interventional Pulmonology <i>Rajesh Thomas (AUS)</i>
15.50 - 16.10	Opportunity Immunotherapy in Respiratory Management <i>Wahyuningsih (INA)</i>

## CLOSING CEREMONY

16.10 - 16.30

# CRITERIAS FOR FREE PAPER SUBMISSION

## "The 19<sup>th</sup> International Meeting on Respiratory Care Indonesia" (Respina) 2017

### Participants :

1. General Practitioners, Specialists, Residents, Pharmacologists, Biology Scientist.
2. Free Paper participants must be registered as "The 19<sup>th</sup> International Meeting on Respiratory Care Indonesia" (Respina) 2017 participants. Maximum age limit is 40 years old at the registration time.
3. The submitted free paper is a result of a research and not a case report.
4. All of the submitted abstract will through selection process. The writer of the chosen abstract will be contacted through telephone or email and must submit the full paper to Respina 2017.
5. The chosen participants must give their presentations in English language in Respina 2017. The presentation should be prepared in MS Powerpoint format (.ppt) in 8-10 slides in English. Each participant will be given 10 minutes for the presentation time and 2.5 minutes for the discussion session with the jury.
6. If the participants are not present at the discussion session, the participants are considered abstain and will not receive the participation certificate.

### Assessment Criteria :

1. Topic must be related with Respiratory Care theme "Sailing Through Life"
2. Original work from the participants themselves. Research methodology.
3. Match between the title and the content of the paper.
4. Benefit of the research.
5. Mastering the content of the paper at the time of the presentation and the discussion session.

### Terms of the Preparation :

1. Abstract
  - a. The abstract must be typed and printed in English.
  - b. The abstract must be written in minimum 100 words and maximum 250 words.
  - c. The abstract must include the title, the writer's names, the institution's name, the background, the material and method, the result and the conclusion.
  - d. The title must be typed entirely in uppercase letters, while the author's names are written in lowercase letters and without the degree, and the presenter's name imprinted on the first order
  - e. The abstract must be typed with 1 line spacing distance of the MS Word programs and Arial font with size 10.
  - f. The abstract and registration form should be sent via email attachment to both Respina

email addresses: info.respina@yahoo.com and info.respina.indonesia@gmail.com.

- g. The deadline for the poster and free paper submission is no later than July 7<sup>th</sup>, 2017
  - h. The deadline of abstract for poster & free paper presentation is no later than July 14<sup>th</sup> 2017.
2. Full Paper
    - a. The full paper has not been published previously or included in another scientific competitions.
    - b. The full paper is written in English.
    - c. The full paper is typed using MS Word program with Arial font with size 10, the line spacing distance of 1.5 on A4 paper and with a distance of 3 cm from the top, bottom, right and left side of the paper edge.
    - d. The maximum number of the full paper pages is 10 pages (including the graphics, tables, images, and references).
    - e. The full paper consists of :
      - i. The title is written in capital letters and can't use acronym.
      - ii. The author's name and the institution's name are written under the title.
      - iii. The specified author's names are the ones who contributed to :
        1. The conceptualization, analysis, and data interpretation.
        2. The preparation of the article.
        3. The final approval to be published.
      - iv. The main author's name / the presenter is written on the first order on the authors' names.
      - v. The abstract of the full paper and the keywords are consistent with the previously submitted abstract.
      - vi. The content consists of the background, the material and methods, the result, and the discussion parts.
      - vii. The reference is written based on Vancouver system with the minimum number of literature references is 10 and the maximum number is 25 literatures.
      - viii. The appendix.
    - f. The full paper should be sent via email attachment to both Respina email addresses: info.respina@yahoo.com, info.respina.indonesia@gmail.com.
    - g. The chosen participants must submit their full papers no later than July 20<sup>th</sup>, 2017.

# CRITERIA FOR POSTER SUBMISSION

“The 19<sup>th</sup> International Meeting on Respiratory Care Indonesia” (Respina) 2017

## Participants:

1. General Practitioners, Specialists, Residents, Pharmacologists, Biology Scientist.
2. Poster participants must be registered as “The 19<sup>th</sup> International Meeting on Respiratory Care Indonesia” (Respina) 2017 participants. Maximum age limit is 40 years old at the registration time.
3. Deadline registration for poster submission is no later than July 7<sup>th</sup>, 2017
4. Each poster participants must submit 1 (one) poster from research results or case reports in the form of JPEG/PDF format and their registration form to the Respina 2017 committee via email to both Respina email addresses: [info.respina@yahoo.com](mailto:info.respina@yahoo.com) and [info.respina.indonesia@gmail.com](mailto:info.respina.indonesia@gmail.com) before July 14<sup>th</sup>, 2017.
5. If the poster participants are not present at the Poster Session, the participants are considered abstain and will not receive the participation certificate.

## Assessment Criteria:

1. Topic must be related with Respiratory Care theme “Sailing Through Life”.
2. Original work from the participants themselves.
3. Research methodology.
4. Match between the title and the content of the poster.
5. Benefit of the research or the case report.
6. Mastering the content of the poster at the time of the presentation and the discussion session

## Format Poster:

1. The poster has not been published previously or included in another scientific competitions
2. The poster must be typed and printed in English.

3. The poster must be in A1 size (59.4 cm x 84.1 cm) and in portrait page orientation.
4. The poster is no more than 2 images / photos, and 3 tables / graphics.
5. The Poster consists of:
  - i. The title is written in capital letters and can not use acronym.
  - ii. The author’s name and the institution’s name are written under the title.
  - iii. The specified author’s names are the ones who contributed to :
    1. The conceptualization, analysis, and data interpretation.
    2. The preparation of the article.
    3. The final approval to be published.
  - iv. The main author’s name/the presenter is written on the first order on the authors’ names.
  - v. The content
  - vi. The reference is written based on Vancouver system with the minimum number of literature references is 10 and the maximum number is 25 literatures.
  - vii. The appendix.

## Poster Placement and Presentation:

1. The posters will be placed based on the registration number of the participants.
2. The posters are expected to be submitted at least one day prior to the scheduled presentation time.
3. The participant must be standing next to his/her poster in the Poster Session place and must have the discussion with the jury in English.

# REGISTRATION INFORMATION

## REGISTRATION PAYMENT

All registration fees must be paid by bank transfer. Registrant should bear all bank charges. Please send a copy of the transaction proof along with the registration form to the Organizing Committee.

## BRI KK RS Sulianti Saroso Sunter

Account Name : RESPINA

Account Number : 1205.01.000014.30.9

## CONFIRMATION OF REGISTRATION

Upon receiving the registration payment proof, each participant will receive an official confirmation. Please bring and show this confirmation letter to the registration desk for re-registration.

## ON SITE REGISTRATION

Those who have not registered in advance may register at on-site registration desk. Only cash payment will be accepted during on-site registration. No refund will be made for on-site registration fees.

## CANCELLATION OF REGISTRATION

1. Written cancellation notice is required and will be settled after the congress.
2. Written cancellation received before:
  - May 1<sup>st</sup>, 2017 : 75% refundable
  - June 1<sup>st</sup>, 2017 : 50% refundable
  - After July 09<sup>th</sup>, 2017 : Non refundable

# ACCOMODATION

## HOTEL POLICY

Due to high demand on the hotel room at the time of congress, the congress secretariat strongly recommended early reservations. Although the organizer will be unable to guarantee hotel rooms if the request given after June 1<sup>st</sup>, 2017.

## ROOM RATES

Hotel rooms at special congress rate are being held for the congress participants in various hotels of different categories. All rates are in rupiah, per night and per room included Breakfast. Reservations must be made through the congress secretariat to guarantee the indicated rates negotiated for the congress.

## HOTEL RESERVATION

Hotel assignment will made on a “FIRST COME FIRST SERVE BASIS”. If certain hotel have been booked out, the committee has the right to allocate in to another hotel with a similar standard. The hotel may be requested through the Respina secretariat.

Application for hotel reservation should be made on the Hotel Reservation Form. Telephone request cannot be accepted. Hotel Reservation Form email to [info.respina.indonesia@gmail.com](mailto:info.respina.indonesia@gmail.com) or [info.respina@yahoo.com](mailto:info.respina@yahoo.com)

No reservation will be made without the requested deposit. One night deposit is required and should be paid before June 1<sup>st</sup>, 2017. NO CANCELLATION OF HOTEL RESERVATION.

# REGISTRATION INFORMATION

## REGISTRATION

Early registration for symposium and workshop can be made through congress secretariat (phone and fax), emails and website.

## ONSITE REGISTRATION

- Symposium  
Meeting registration desk will be opened on Tuesday, August 09<sup>th</sup>, 2017  
The registration desk is located at Shangri-La hotel, Jakarta (Call center: 0813 8200 8877 / 0857 1933 5220).
- Workshop  
Workshop registration desk will be opened on Tuesday, August 09<sup>th</sup>, 2017  
The registration desk is located at Shangri-La hotel, Jakarta (Call center: 0813 8200 8877 / 0857 1933 5220).

The registration fee includes: admission to all scientific session except workshop, admission to opening ceremony, admission to exhibition, program book, meeting kits, admission to closing ceremony, lunch and coffee Break.

## REGISTRATION FEE FOR ACCOMPANYING PERSON

The registration fee includes: Access to commercial exhibition and opening ceremony.

## SYMPOSIUM (August 11<sup>th</sup> - 12<sup>th</sup>, 2017)

PARTICIPANT	Up to 16 <sup>th</sup> June 2017	17 <sup>th</sup> June - 28 <sup>th</sup> July 2017	29 <sup>th</sup> July 2017 - Onsite
<input type="checkbox"/> Specialist	Rp. 1.500.000	Rp. 1.700.000	Rp. 1.800.000
<input type="checkbox"/> GP / Resident / Nurse	Rp. 900.000	Rp. 1.000.000	Rp. 1.100.000
<input type="checkbox"/> Student	Rp. 750.000	Rp. 900.000	Rp. 900.000

## WORKSHOP (August 9<sup>th</sup> - 10<sup>th</sup>, 2017)

PARTICIPANT	Up to 16 <sup>th</sup> June 2017	17 <sup>th</sup> June - 28 <sup>th</sup> July 2017	29 <sup>th</sup> July 2017 - Onsite
<input type="checkbox"/> Good Clinical Practice (GCP)	Rp. 1.900.000	Rp. 2.100.000	Rp. 2.300.000

## WORKSHOP (August 10<sup>th</sup>, 2017)

PARTICIPANT	Up to 16 <sup>th</sup> June 2017	17 <sup>th</sup> June-28 <sup>th</sup> July 2017	29 <sup>th</sup> July 2017 - Onsite
<input type="checkbox"/> Mechanical Ventilation	Rp. 1.700.000	Rp. 1.900.000	Rp. 2.000.000
<input type="checkbox"/> Pleural Diseases	Rp. 1.700.000	Rp. 1.900.000	Rp. 2.000.000
<input type="checkbox"/> Oxygen & Inhalation Therapy	Rp. 1.700.000	Rp. 1.900.000	Rp. 2.000.000
<input type="checkbox"/> Lung Function	Rp. 1.700.000	Rp. 1.900.000	Rp. 2.000.000
